

## SCANNING & DIGITAL SERVICES

This service includes 10 minutes of computer time to scan, crop, size, adjust the image to the proper contrast level, and set the dpi rate for the printer. These images are completely ready for placement by the graphic designer.

Some minor work can be done within this time frame such as dust spotting, small signage removal, or minor retouch of facial blemishes. Anything beyond this falls in the category of **Additional Computer Time.**

Final images can be delivered by E-mail, Diskette (Mac or PC), burned to CD, stored on Zip-disk (Mac or PC).  
(For substandard negs or prints \$2.00 per minute will apply to correct the problem)
